Screen Industry Guild/ScreenSafe in conjunction with COVID 19 Action Group

Back-to-Production Toolkit Press Release

We are now entering our second week of COVID-19 at Level 4, and we know there is a lot of interest in finding out what is being done towards getting back to work, and what this may look like for our industry.

Please be assured, with assistance from central government, this is being looked in to, research is underway, and plans are being developed as to how to best support productions to get back to work when this may be possible under the current NZ COVID-19 Alert Levels.

We are working to provide this in the form of a Screen Industry Back-to-Production Tool Kit, supported by New Zealand Film Commission and developed by Screen Industry Guild and ScreenSafe, under the umbrella of WorkSafe. A consulted draft will be available as soon as possible and we are working to confirm timelines now.

During the process we will be seeking feedback and input from Health and Safety experts and other qualified contributors.

Ngā mihi nui

Stay safe, stay home, maintain your bubble.
